Gentlemen:

I had been advised by Mr. Stefan P. Munsing of Public Affairs Division E & CR Branch that the Munich Collecting point had been closed, and all art object had been transferred to you.

I beg to advise you that I called in person during the month of June, at the Munich office looking for three paintings by Rudolph Alt, which my family had delivered in 1938 to the Belvedere art collection in Vienna. They were:

1. "Schloss in Yalta"
2. "Atelier des Kunstlers"
3. "Ansicht vom Kaukasus"

This "Schloss in Yalta" could also have been "Schloss Livadia"

They were water colors, and as far as I can remember, about 10" high, and 14" long in gold frames.

I would be very grateful if you would inform me if any Alt paintings of this description could be traced through you.

I am leaving this week for Vienna, and my mailing address is:

c/o E. Braun & C.
Graben 8
Vienna 1,
Austria

Very truly yours,

H. B. Myer

Dear Sirs,

Your address was given to me by the
Office of the U.S. High Commissioner for Germany,
in Munich. They advised me to write to you in
the following matter.

When I and my husband left Austria in
1938 we had to leave behind eight valuable paintings.
After the war in 1946 my late husband wrote about this
matter to the Allied Commission for Austria and we also
contacted a number of other offices with the objective
of finding traces of the lost paintings.

I have so far not been successful but was
informed that there is a good chance of some of the
paintings in question turning up at your collecting
point. I therefore take the liberty of enclosing
herewith a list with descriptions of these paintings
and would be very much obliged if investigations could
be made for the purpose of possible recovery.

Thanking you for your endeavours in advance
and looking forward to hearing from you, I am,

Yours very sincerely,

I. Korner

Dear Sir,

This office is in receipt of a letter of Mr. L. Miniclier, dated 11 March 1950, with enclosed photostatic copies of the claim of Dr. Kantor.

Mr. Theodore A. Heinrich is at present on leave in the United States.

As far as the Wiesbaden Central Collecting Point is concerned a similar claim of Dr. Kantor through Chief MF&A Section, OMG Karlsruhe, was received in 1948. Appropriate action was taken and a check of all unidentified material stored at this installation was made; however, with negative result which was duly reported to OMGUS. After receipt of the photostatic copy of the claim the material at the Central Collecting Point was checked again but the result was still negative.

Mr. Heinrich will be informed about this matter by the undersigned after his return from leave.

Yours truly,
